We need to keep uber up and running. They provide a great service and there is no right to shut them down.

If UberX meets or exceeds any current Taxi regulations, then they need to be allowed to operate in this state. Taxis are expensive! Uber offers an affordable way for consumers to get rides whether they are drunk and cannot drive or they don't have a car and need to get to work.

I have found uber to be a safe and reliable service. Although I can only speak for myself and a few people I know who have also used the service I hope that something can be worked out to allow uber to operate without putting them at a competitive disadvantage
